

REMARKS

Claims 1-4 and 6-27 are pending in this application. Claims 1-4 and 6-24 and 27 have been allowed. Claims 25-26 stand rejected. Applicant has amended claim 25. Support can be found in the claims and specification as originally filed. Reconsideration and allowance in view of the following amendments and remarks are requested.

Claim Rejections – 35 U.S.C. § 112

Claims 25-26 stand rejected under 35 U.S.C. § 112, second paragraph, as being indefinite. The Office Action asserts that the definition of "MPU" is not clear as it is not found or supported in the specification. Applicant responds as follows.

Claim 25 has been amended to provide a clear definition for "MPU." Specifically, claim 25 has been amended to include the phrase, "a micro processing unit (MPU) for receiving the marking information from the wireless receive module and performing an entry trigger service corresponding to the received marking information."

One of ordinary skill in the art would clearly understand that "MPU" is an abbreviation for "micro processing unit." This is especially evident in the present application where "MPU" is used in the context of a mobile phone, such as in claims 25 and 26 and at paragraph [0021]. Indeed, the original claims and specification describe an MPU as being positioned "in the mobile phone" and state that the MPU's function is "to process." Thus, one of ordinary skill in the art would clearly understand that "MPU" is an abbreviation for "micro processing unit" Applicant has also amended claim 25 to recite a function performed by the MPU. This function is supported by the claims and specification as originally filed (e.g. see step 4 of claim1) and further supports the that "MPU" refers to "micro processing unit." Thus, claims 25 (and 26) as amended are not

indefinite. In view of the above, withdrawal of this rejection and allowance of the above claims is respectfully requested.

If Applicant can do anything more to expedite prosecution of this application, Applicant requests that the Examiner contact the undersigned at (310) 788-3231.

Respectfully submitted,
Perkins Coie LLP
